

Identifying Speech, Language, Occupational Therapy Needs and Developing Targets EYFS 21/00111

Course Description:

This is jointly delivered by a qualified speech and language therapist (SLT) and occupational therapist (OC) who will provide case histories of typical children who need support. The course will give ideas about how to identify and help these children including developing appropriate targets to incorporate into SEN support plans. It will also help you understand when to refer and how to access the CYP Integrated Therapies Service.

Target Audience:

Teaching Assistant, Speech and Language Therapist, SENDCO, Nursery Nurse, Learning Support Assistant, Early Years Practitioner, Childminder

Learning Outcomes:

- Understand the role of SLTs and OTs and how and when to request involvement
- Have practical ideas about how to support children in their EY setting with identified speech and language or occupational therapy needs.
- Know where to access information and activities to support children with a range of needs
- Know how to develop SMART targets for SEN support plans.

How To Book:

You will need an account on our online booking system
